- 2 == 25X1 At about 11 a.m. on 14 October, numerous soldiers were reconditioning the loard fence around Olympisches Dorf and were roofing sheds, which quartered AT guns, outside of the installation. 25X1 on 15 October, the Clympisches Dorf was occupied by about 5,000 troops (B-3). On 15 October, the quartering sections of Units I, and II in the Lowen Kaserne and the Adler Kaserne were occupied only by small rear details (B-3)2 25X1 Lie effective immediately, Soviet troops were again restricted to quarters. 11 Russian women stationed in the installations were to return to the USSR on 1 November. 25X1 effective 3 October, Soviet troops were again restricted to quarters, allegedly because a 62-year old woman had been raped, and other excesses had occurred. Comment: The return to Olympisches Dorf in Doeberitz of the 2d Light Arty Frig (US) from Neustrelitz and Jueterbog between 9 and tober had been reported 25X1 However, it is relieved that, after the return of the brigade. Clympisches Dorf was occupied by not more than 3,000 troops. Comment. The information indicates that the units of the let Wecz Div stationed in the installations mentioned, including the 19th Macz Regt and the 72d Gds By Tank SP Regt, were still stationed at the Doeberitz training area on 15 October. 25X1 Comment This may also be the reason cheap German labor can again be employed.
